Take Control of Your Network Today

DECmcc . . .
It's time to bring the pieces
together with integrated
management from Digital.

Enter
the 90s
with
DECmccTM...

the
Integrated
Approach to
Enterprise
Management

Introducing network management ... 1990s style. Control. Management. Efficiency. Productivity. Integration. Choice. Individually each of these represents an important aspect of network management. Combined they create a powerful management solution ... the DECmcc Management Station.

The DECmcc Management Station is a single, consolidated software package that gives you control of your network. You can manage your multivendor network from a single CPU using DECwindows technology. You can also improve overall network efficiency, increase management staff productivity, and decrease hardware/software costs by consolidating all management operations in a single location. And, because there are two options, you can easily match your management style and needs to the appropriate offering.

In addition, you can now add savings and growth to your list of essential network management requirements. Here's how a DECmcc Management Station can become the integrated management solution you've been looking for ...

BUY TODAY ... INVEST IN THE TECHNOLOGY OF THE FUTURE.

This is your chance to join the growing Digital network management family. It's time to invest in your future! With the purchase of the DECmcc Site or Enterprise Management Station today, you will have the unique advantage of receiving a series of updates that will guide you from today's collection of management products, to a DECmcc Management Station comprised exclusively of industry recognized, EMA-compliant software (see the enclosed brochure for details). Throughout this program, migration tools will be provided for the conversion of database, configuration, and reference information onto the new platform. This transition program protects your investment by allowing you to use current technology today, AND grow into the innovations of the future.

LIMITED TIME OFFER FOR CURRENT CUSTOMERS.

Do you already use one or more of Digital's current network management products? If so, this additional offer is for you! **Until June 30, 1990**, you have the opportunity to "trade-in" your current products for full credit towards the latest network management technology ... the DECmcc Management Station. By acting NOW, you will increase your management functionality immediately, and automatically qualify for the transition program to the EMA-compliant DECmcc Director and appropriate management modules.
